

# AIRFAAS

**MORE BUSINESS  
AND LESS ADMIN!**

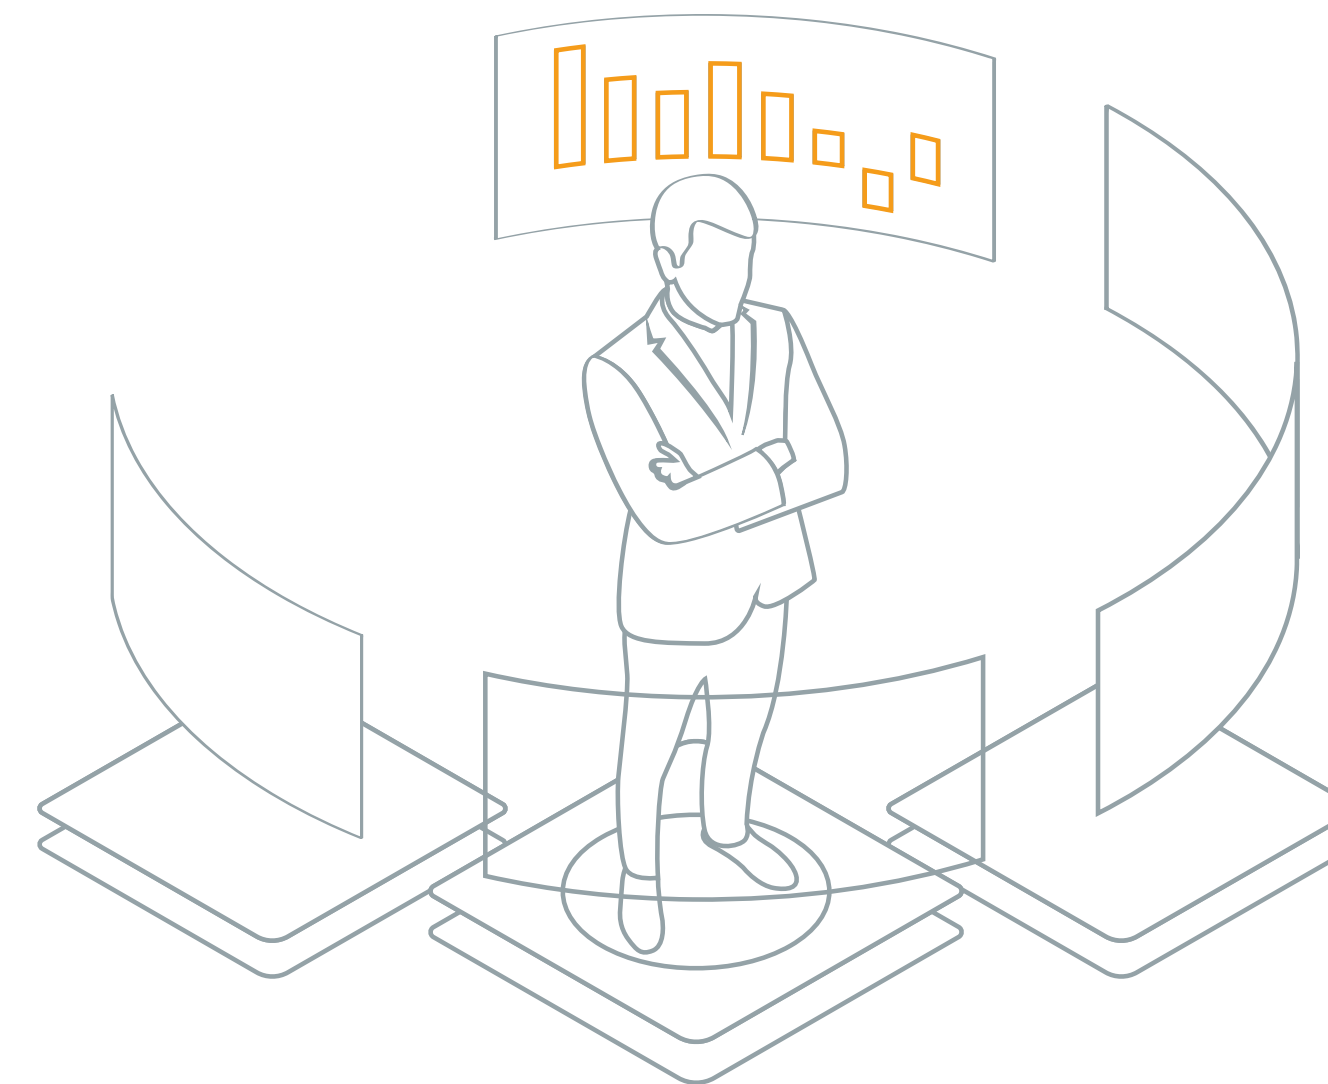

GROWING THE WORLD'S MOST INNOVATIVE FACTORIES

# **MORE** BUSINESS

AirFaas is like an Airbnb for factories, where you can sell and buy from trusted and vetted partners, globally, expanding your business, even globally, with much less effort than before.

# **LESS** ADMIN

You don't have to make heavy IT investments, like ERP. All necessary tools are already inside AirFaas. If you already have ERP, it easily integrates with AirFaas.

**FREE**

**YOUR COMMUNICATIONS!**

**AirFaas also solves the problem with siloism.**

People from quality, procurement, production, sales and after sales are gathered in a transparent ecosystem where they can – if allowed – access all information and communication.

Also your collaborators and partners can access the info if you want.

**DON'T WORRY**

# ABOUT DODGY SUBCONTRACTORS

AirFaas allows large companies to implement an audit and traceability trail through the whole supply chain, through Tier 1, Tier 2 and so on. All in a digital format, with automated third party use audits and performance indicators.

This gives you access to visualize your supply chain and ensure that no unwanted manufacturing organizations are involved. In short, GPO, Global Process Ownership.

The system also ensures traceability of hazardous materials throughout the supply chain, like RoHS and SVHC.

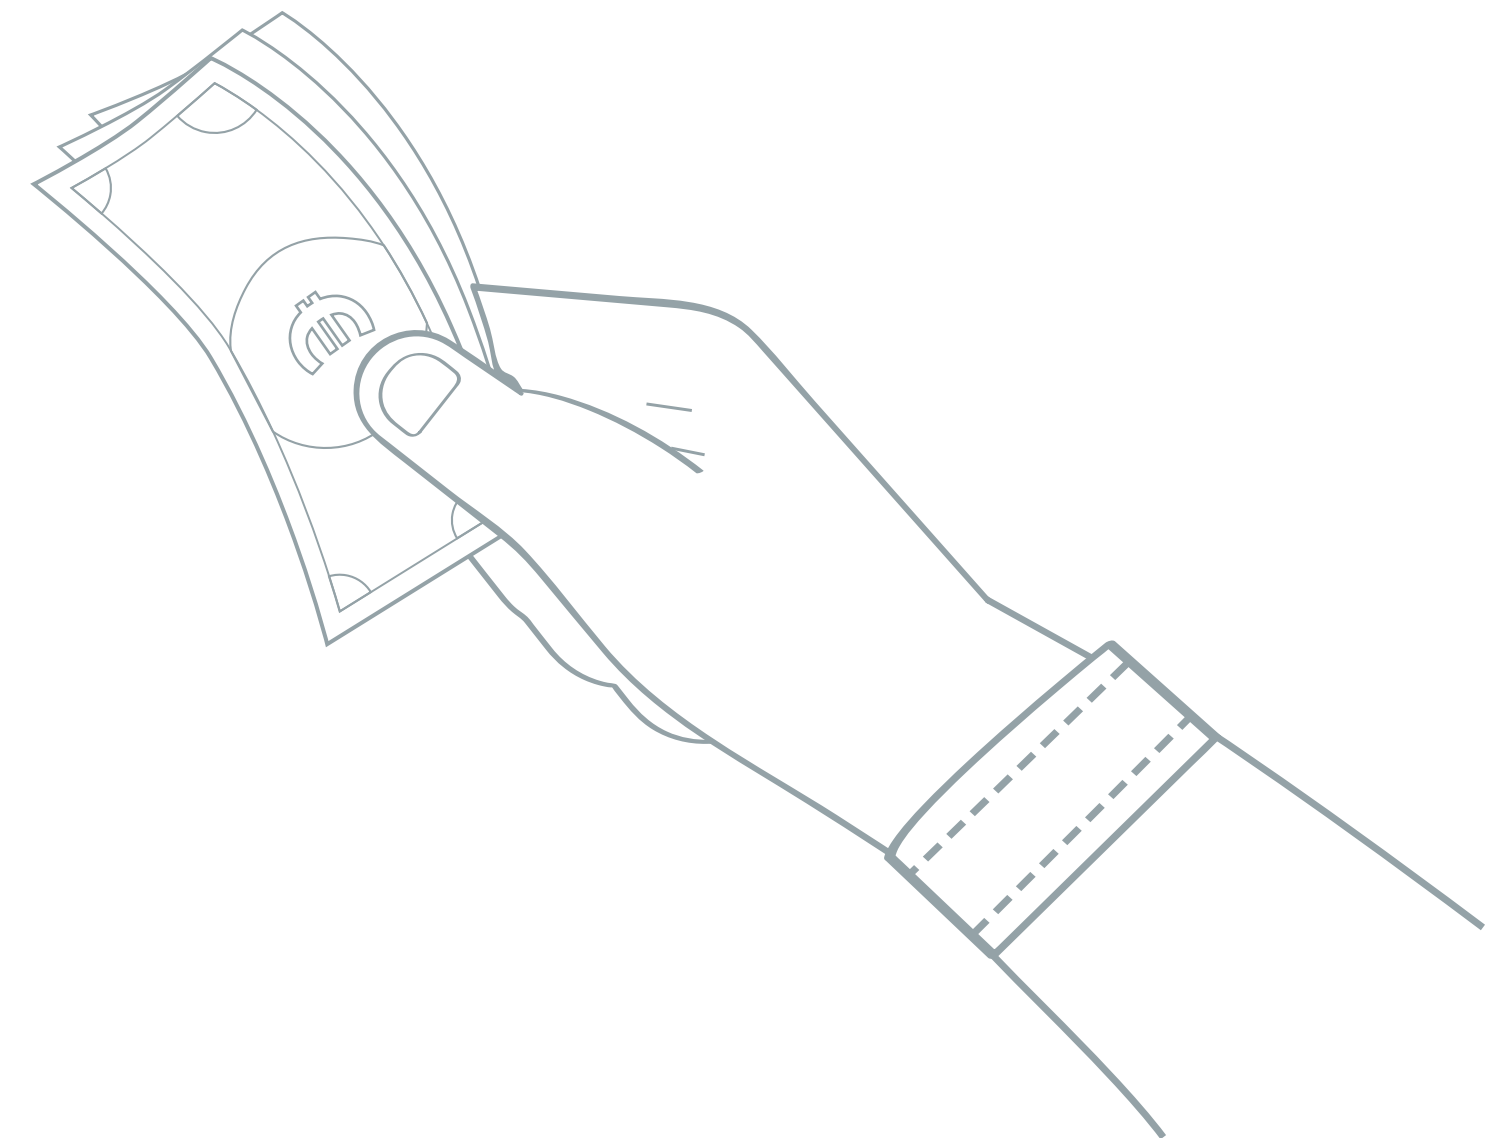

**YOU'RE A FACTORY**

**NOT A BANK!**

As a factory you no longer need to finance your customers production. Our "AirFaas- Finance Loop" takes care of that after a normal financial evaluation.

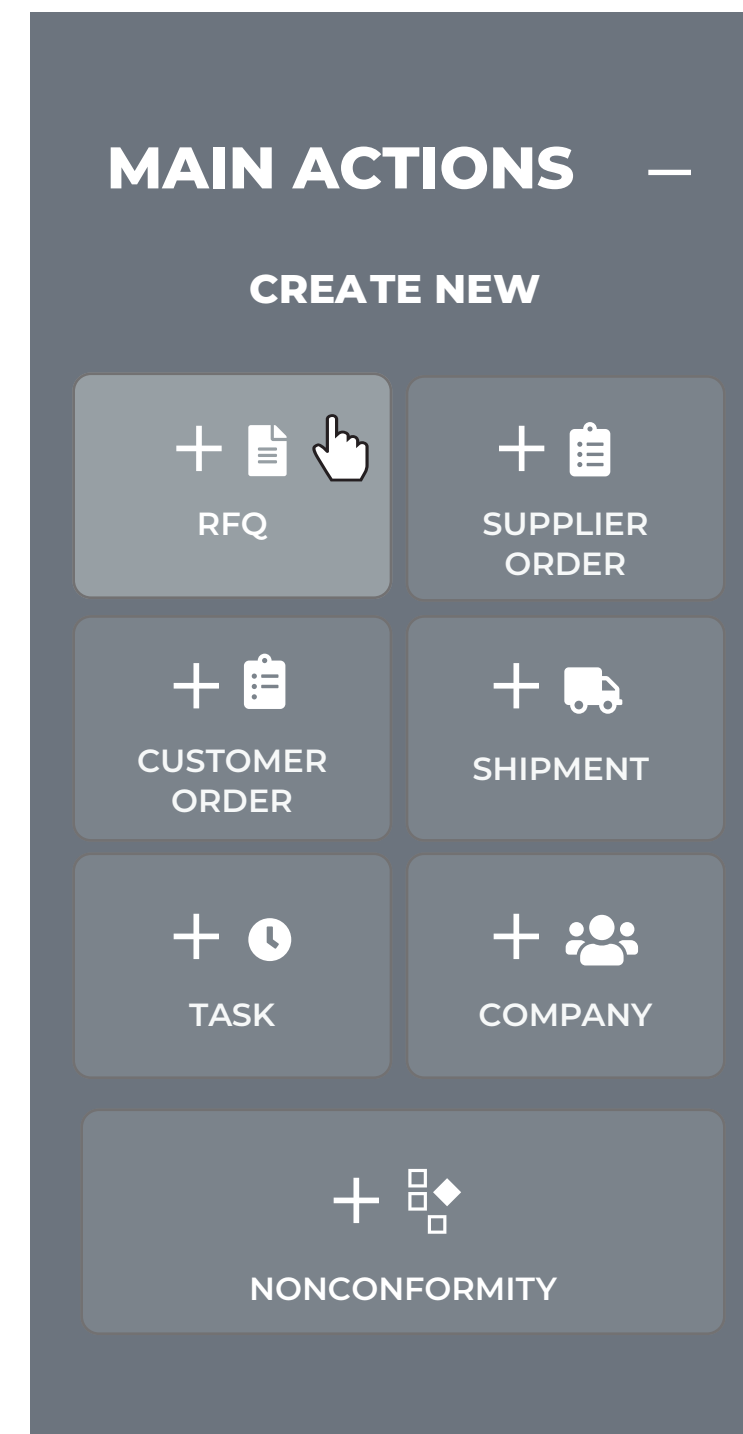

We offer prepayment financing for your sales orders – get the money to buy rawmaterials for your orders.

The solution is made in cooperation with **NORDEA**

# IT'S

# EASY

- Simple to use
- Intuitive navigation
- Efficient
- Forget excel – easy templates

# GET GOING

# IN 5 EASY STEPS

1

Book a demo at [www.airfaas.com](http://www.airfaas.com)

2

Our team helps you to insert customers / suppliers lists

3

Insert parts list

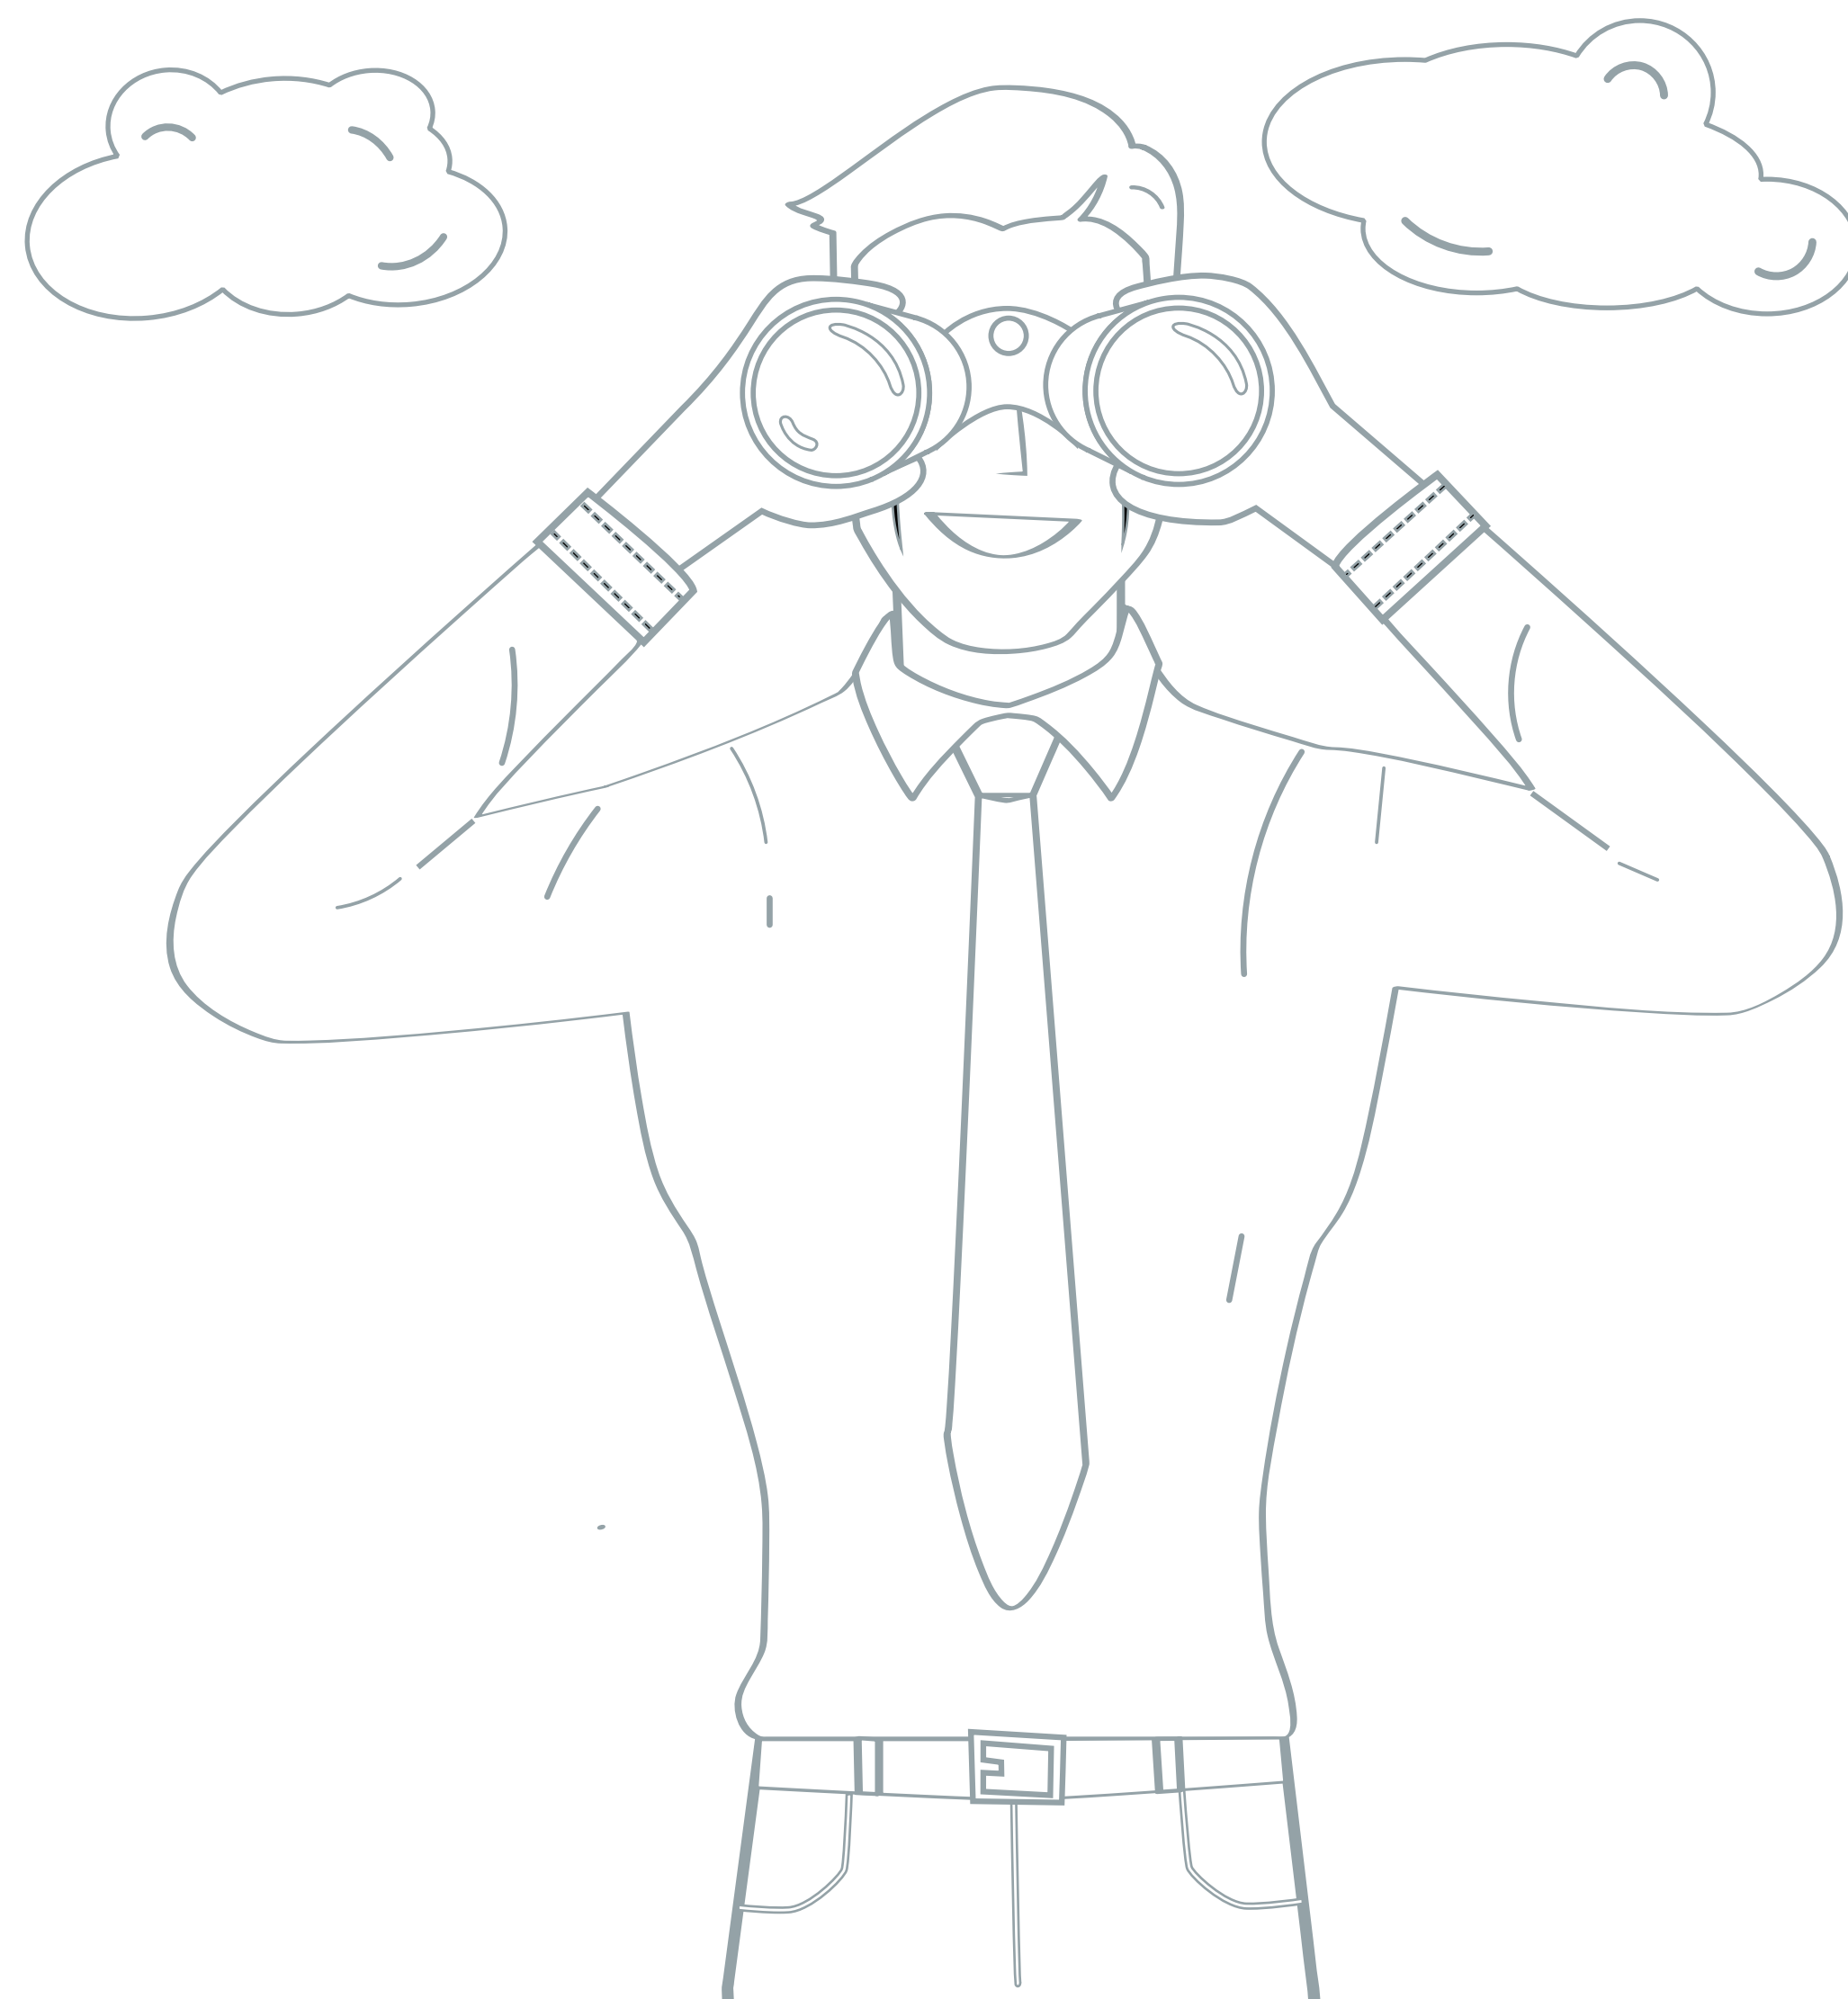

4

Insert price lists

5

And – now you are **ready to go!**
